BENEFITS

- The full range of Lidoband products allow castration of animals from day-old lambs to mature bulls.
- Improved animal welfare.
- Delivery of local anesthesia during castration.
- Lidoband delivers local anesthesia from 2 hours up to 42 days post-application.
- No injections to be performed when using Lidoband.
- Castration leads to increased Average Daily Gain (ADG).
- Bloodless castration.
- All Lidoband formats are compatible with existing castration band applicators.
