with Vitaferst-Care™

Patent No. A8144435CA

Most production animals' nutrient levels are normal at birth but can be rapidly depleted during the neonatal period. This can limit their potential. That's why supplements are often required when milk is the sole source of nutrients.

### Vitaferst-Care's Oral Formulation Includes:

#### Selenium

to promote growth

#### Vitamin A

for promoting neonatal immunity

#### Vitamin D

to support growth and metabolism

#### Vitamin E

to stimulate the immune system

#### Vitamin B<sub>12</sub>

for cell growth and support of the immune system
